

# ANALYTICAL

## AGN Professional Series

Best-in-class performance combined with a scalable design for advanced laboratory and analytical applications. Equipped with a state-of-the-art automatic internal calibration mechanism that keeps the scale calibrated at all times.

- ▶ Automatic Internal Calibration
- ▶ Robust die-cast metal housing
- ▶ Intuitive Graphical LCD Display
- ▶ 12 Configurable Weighing Modes and 9 Weighing Units
- ▶ Transfer weighing data to a PC or printer via USB

MODEL	AGN100	AGN200	
Capacity	100g	200g	
Readability (d)	0.0001g		
Repeatability (Standard Deviation)	0.0001g		
Linearity	+/-0.0002g		
Stabilization time (typical)	Approx. 3 sec		
Tare Range	-100g	-200g	
Accuracy Class	I		
Calibration	Automatic Internal		
Pan Dimension	90mm (3.5 in)		
Scale Dimension	216mm (8.5 in) x 345mm (13.6 in) x 347mm (13.7 in)		
PS2 Port	Standard		
RS232 Port	Bidirectional		
USB	Type B		
Application Modes	Weighing, Parts Counting, Animal Weighing, Check Weighing, Display Hold, Percent Weighing, Totalizing, Check Counting, Compounding, Statistics, SQC Quality Control, 512 KB Library Bank		
Weighing Units	Grams, Milligrams, Kilograms, Carats, Pounds, Newton, Grains, Ounces Troy, Pennyweight		
Warranty	24 months		
ACCESSORIES			
301050	Barcode Scanner	301067	Density Kit
301052	PS2 Keyboard	301091	Dust Cover
301058	RS232 PC Cable	301095	Printer Paper for TP-2
301059	Printer Paper for TP-1	301096	TP-2 Thermal Printer
301060	TP-1/RXP-4 Thermal Printer
